CALIFORNIA STATE LAW, UNDER SECTION 1689.7 OF THE CALIFORNIA CIVIL CODE, REQUIRES THAT YOU BE GIVEN THE FOLLOWING NOTICE (NOT APPLICABLE ON COMMERCIAL OR INCOME PROPERTY)

MECHANIC'S LIEN WARNING MECHANICS' LIEN WARNING: Anyone who helps improve your property, but who is not paid, may record what is called a Mechanics' Lien on your property. A Mechanics' Lien is a claim, like a mortgage or home equity loan, made against your property and recorded with the County Recorder.

Even if you pay your contractor in full, unpaid subcontractors, suppliers, and laborers who helped to improve your property may record Mechanics' Liens and sue you for in court to foreclose the lien. If a court finds the lien is valid, you could be forced to pay twice or have a court officer sell your home to pay the lien. Liens can also affect your credit. To preserve their right to record a lien, each sub-contractor and material supplier must provide you with a document called a '20 day Preliminary Notice'. This notice is not a lien. The purpose of the notice is to let you know that the person who sends you the notice has the right to record a lien on your property if he or she is not paid.

BE CAREFUL. The Preliminary Notice can be sent up to 20 days after the subcontractor starts work or the supplier provides material. This can be a big problem if you pay your contractor before you have received the Preliminary Notices. You will not get Preliminary Notices from your prime contractor or from laborers who work on your project. The law assumes that you already know they are improving your property.

7. LICENSE, PERMITS, AND FEES

A. CLIENT shall furnish and pay for, at their own expense, all taxes, permits, and license fees required to legally perform the repair work in accordance with this Agreement.

B. Access to the property for an agent of administrative authority must be provided within a reasonable time. Should reasonable access not be provided, it may result in additional charges to the CLIENT.

CONTRACT ADDENDUM REGARDING CARBON MONOXIDE DEVICES

Senate Bill 183 requires owners of certain homes with attached garages, or a fossil fuel source, to install carbon monoxide devices within the home. Similar requirements will be required for multi-family leased or rental dwellings (such as apartment buildings) in the near future.

We are informed that certain building departments are requiring these devices to be installed as a condition for approving building permits. The fact that these devices may be required could impact our contract with you.

Our contract does NOT include the purchase or installation of any such safety devices. By entering into this Agreement, you agree that should the building department or any other governmental agency us to install any carbon monoxide device, whether that be a single device or devices in each bedroom, then you as the customer will install such devices as required, or you can direct us to install them as a change order in which case the contract price herein will increase by the price to procure and install the devices, plus our mark-up in the contract.

It is understood and agreed that we will not be installing any carbon monoxide devices absent a written change order for the installation of such devices. Any delay in the completion of your project caused by a building department order that such devices be installed will not be our responsibility.

If you have any questions concerning this proposal please contact us.

Thank you for your business!
